

drs1512 hair vs Other treatments

ACTIVES TYPE	INGREDIENT	drs1512 hair	Other treatment	FUNCTION
Growth Factors	• sh-Polypeptide-1 (bFGF)	✓	✓	• Promotes hair growth & regeneration.
	• sh-Oligopeptide-1 (EGF)	✓	✗	• Helps in the repair & regeneration of hair follicles.
	• sh-Oligopeptide-2 (IGF-1)	✓	✓	• Supports hair follicle growth & maintenance.
	• sh-Oligopeptide-4 (Thymosin-B4)	✓	✓	• Supports wound healing & tissue repair in the scalp.
	• sh-Polypeptide-9 (VEGF)	✓	✓	• Stimulates blood circulation & nutrient delivery to hair follicles.
Peptides	• Copper tripeptide-1	✓	✓	• Strengthens hair & promotes hair thickness.
	• Octapeptide-2	✓	✗	• Stimulates hair growth & improves hair quality.
	• Acetyl tetrapeptide-3	✓	✗	• Enhances hair density & reduces hair loss.
	• Decapeptide-10	✓	✗	• Supports hair follicle health & maintenance.
	• Oligopeptide-54	✓	✗	• Helps in reducing inflammation & supporting scalp health.
Co-Enzymes	• Nicotinamide adenine dinucleotide (NAD+)	✓	✗	• Supports cellular energy production in hair follicles.
	• Disodium Flavine adenine dinucleotide (FAD)	✓	✗	• Supports cellular metabolism & energy production in hair cells.
	• Coenzyme-A	✓	✗	• Supports the synthesis of proteins essential for hair growth.
Nucleic Acids	Adenosine Cyclic Phosphate	✓	✗	• Helps in promoting hair growth & reducing hair loss.
	Guanosine, Cytosine, Thymine	✓	✗	• Supports DNA synthesis and cellular functions in hair follicles.
Minerals, Vitamins & Amino Acids	Calcium Chloride, Magnesium Sulphate, Potassium Chloride	✓	✓	• Provide essential minerals for hair health.
	Niacinamide (Vitamin B3)	✓	✓	• Improves scalp circulation & supports hair growth.
	Vitamin C	✓	✓	• Antioxidant & promotes collagen production for hair strength.
	Biotin (Vitamin B7)	✓	✓	• Essential for various metabolic processes & synthesis of keratin, crucial for healthy hair growth.
	Retinol (Vitamin A)	✗	✓	• Revive dormant hair follicles.
	Pantothenic acid (Vitamin B5)	✗	✓	• Provides nourishment to follicles & reduces scalp irritation.
	Amino Acid Complex	✓	✓	• Supports protein synthesis for strong & healthy hair.

Introducing Novel Highly Effective Concentrate Hair Regeneration Solution

5

Growth Factors
Stimulate hair follicle growth & improve hair density

- ✓ sh-Polypeptide-1 (bFGF)
- ✓ sh-Polypeptide-9 (VEGF)
- ✓ sh-Oligopeptide-1 (EGF)
- ✓ sh-Oligopeptide-2 (IGF-1)
- ✓ Sh-Oligopeptide-4 (Thymosin-B4)

5

Peptides
Enhance hair thickness and strength

- ✓ Copper Tri Peptide-1
- ✓ Acetyl tetrapeptide-3
- ✓ Octapeptide-2
- ✓ Decapeptide-10
- ✓ Oligopeptide-54

3

Co-Enzymes
Supports hair growth & health at a cellular level

- ✓ Nicotinamide adenine dinucleotide (NAD+)
- ✓ Coenzyme-A
- ✓ Disodium Flavine adenine dinucleotide

2

Nucleic Acids
Aids in repairing damaged hair follicles & promoting growth

- ✓ Adenosine Cyclic Phosphate
- ✓ Guanosine, Cytosine, Thymine

5

Minerals, Vitamins & Amino Acids
Provide essential nutrients for hair follicle function

- ✓ Calcium Chloride, Magnesium Sulphate, Potassium Chloride
- ✓ Amino Acid complex
- ✓ Niacinamide (Vitamin B3)
- ✓ Vitamin C
- ✓ Biotin (Vitamin B7)

drs 1512 hair study

Split scalp study of drs 1512 hair vs Saline on same patient

Conducted by Dr. Rachita Dhurat (MBBS, MD), Mumbai

drs 1512 hair

Saline side

drs 1512 Hair Protocol

- **Preparation:** Cleanse the scalp and disinfect to ensure a sterile environment for treatment.
- **Topical Application:** Apply the solution directly to the scalp, through microneedling to enhance absorption.
- **Session Duration:** Procedure takes 10-15 minutes, based on the treatment area
- **Dosage:** 2 ml Vial of drs 1512 is used per session
- **Frequency:** Prescribed sessions are 6-8. It may be spaced weekly or fortnightly (was followed in the study conducted)
- **Post-Treatment Care :** Avoid scratching or rubbing the treated area
- **Results :** Visible results for drs1512 are reported within 6-8 sessions, with improvements in hair density and thickness after 2-3 session.
